

Dear Current and Future Flow Cytometry Users,

May 7, 2024

Below, you will find the updated rates for the use of the Flow Cytometers, Cell Sorters, and peripheral equipment available at the Danish Center for Advanced Cell Analysis

Important: All instruments must be booked via <https://immcore.booking.sdu.dk/Default.aspx>

Cell analyzers:

Sony ID7000 (DIY)	250 DKK/hour
BD LSR II (DIY)	250 DKK/hour

A 1-hour minimum fee applies to all runs:

Cell Sorters:

Invitrogen Bigfoot (assisted)	250 DKK/hour
BD Aria III (assisted)	250 DKK/hour

A combined "startup & cleaning fee" of 500 DKK will be added to all bookings.

Tyto Low-pressure sorter:

MACSQuant Tyto Cartridge (standard)	750 DKK/Cartridge
MACSQuant Tyto Cartridge (High speed)	1000 DKK/Cartridge

The instrument is free to use in 2024 - Cartridges should be purchased via the DCCA

Imaging and peripheral instruments

APX Olympus Fluorescence Microscope	Free in 2024
Cytexa CellCyte X Live cell imaging	Free in 2024
GentleMACS Octo Dissociator	Free in 2024
Biorad Bioplex-200	Free in 2024

Training

Sony ID7000	250 DKK/hour
-------------	--------------

2-hour minimum, max. 3 people, scheduled ad hoc.

Notes:

- Charges will be based on the booked time, adjusted to the nearest ½ hour.
- Time on the instruments relies on user honesty. Cheating and/or repeated failure to book the instruments correctly may result in a user ban.
- Booking modifications and cancellations can be made by writing to either Lars Vitved at lvitved@health.sdu.dk or Jesper B. Moeller at jbmoeller@health.sdu.dk

If you have any questions or suggestions, please do not hesitate to contact us,

Best,
Lars, Daniel, and Jesper
