The Danish Health Examination Survey 2007-2008 (DANHES 2007-2008) is one of the largest health examination surveys among the Danish adult population. The survey consisted of a questionnaire (n=76,484) and a health examination (n=18,065). The DANHES 2007-2008 was carried out by the National Institute of Public Health (NIPH), University of Southern Denmark, and was funded by the Ministry of the Interior and Health and the Tryg Foundation. The above results are based on non-weighted data.
